Case Study #1

Case Study #2

The Romance of the Greenhouse

### ***Resources Recommended by Extension Master Gardeners (Arlington & City of Alexandria)***

Good basic information about Greenhouse Design and Management

- Bumgardner, Natalie. 2020. UT Extension, *Selecting and Designing Small Scale Greenhouses to fit your needs*  
<https://extension.tennessee.edu/publications/Documents/W935-B.pdf>

Much more technical information about Heating and Cooling a Greenhouse

- Worley, John W. 2009. UGA Extension, *Greenhouses: Heating, Cooling and Ventilation*,  
<https://extension.uga.edu/publications/detail.html?number=B792&title=greenhouses-heating-cooling-and-ventilation>

Biological controls for Greenhouse Pests

- Wollaeger, Heidi. 2015. MSU Extension, *Commercially Available Biological Control Agents for Common Greenhouse Pests*,  
[https://www.canr.msu.edu/resources/commercially\\_available\\_biological\\_control\\_agents\\_for\\_common\\_greenhouse\\_inse](https://www.canr.msu.edu/resources/commercially_available_biological_control_agents_for_common_greenhouse_inse)

More Detailed Information about Less Toxic Pesticides

- Russ, Karen. Updated 2021. Clemson Extension, *Less Toxic Pesticides*,  
<https://hgic.clemson.edu/factsheet/less-toxic-insecticides/>

A commercial source - **Recommended for website only.**
